

**My Mosler Biography:**

**Jim Parrock – After returning from the U.S. Navy in 1955, I was hired by George Fightmaster as a draftsman at the Mosler Lock Co. in Covington, KY. I left in 1957 to work at R.A. Jones Co. but was contacted by Tony Potzik and asked to rejoin Mosler. When Fred Huber relocated the Lock Co. to Milford, Ohio, I moved my family to Milford. Management changes occurred and I reported to Bob Lasley in Hamilton, though I remained in Milford as Manager of Lock Engineering.**

**The Milford Plant was expanded to include Data Retrieval Systems, Lou Mustain Replaced Fred Huber and Bob Lasley had Lock Engineering report to Lou. Later, Lock Engineering moved to the Hamilton Grand Blvd. facility and reported to Dick Scully. There were many organizational changes during those years, and I reported to Harry Deaton, Nick Maus and Don Koenig as well.**

**Over the years, my responsibilities were expanded to include Bank, Government and Money Safe Products. I especially enjoyed working with the government and all the contacts with Mosler Service personnel.**

**I retired in 1992, and now live with my wife Barbara in Troy, Ohio**

**Our son Joe is a missionary in Louisville, KY, with three children and one grandchild. Our Daughter has four children and lives near us. She is active in our church and teaches at our local high school.**
